PROFILE

Recent Rotterdam School of Management graduate (BSc International Business Administration, specialising in Finance and Accounting, July 2026) with internship experience in portfolio operations, student-organisation treasury and equity research. Strong coursework record across accounting and finance, including a **9.1/10 minor in Fraud and Forensic Accounting**. Eligible for the Orientation Year (*zoekjaar*) permit — no sponsorship required.

EXPERIENCE

Portfolio Operations Intern — UNETI Labs

Oct 2025 – May 2026

- Designed an automated n8n workflow to build and update **cap tables across 25 portfolio companies** (10+ files each), cutting Investment Committee processing time by **12% — roughly one hour per day**.
- Standardised all existing cap tables into a single structure and consolidated portfolio company information end-to-end.
- Constructed model and simulation cap tables for potential new investments, supporting Investment Committee evaluation.

Treasurer & Co-founder — Erasmus Cricket Association

Sep 2024 – Aug 2026

- Built the club's financial control from scratch — financial statements, income reports and budgeting frameworks — maintaining clean records from founding to present.
- Managed **€2,500 in club revenue** across **40 active members**, securing sustained multi-season funding by monetising new income streams through events.

Student Strategic Consultant — Kathmandu Kitchen

Nov 2023 – May 2024

- Delivered in-depth financial analysis and strategy sessions for a **3-location restaurant chain**; recommendations were adopted by management.

EDUCATION

Rotterdam School of Management, Erasmus University

Sep 2023 – Jul 2026

BSc International Business Administration — Finance & Accounting

GPA 8.1/10 · Minor in Fraud and Forensic Accounting (9.1/10) · Student Representative for the minor (2025–26)

Key coursework: Management Accounting (9.2) · Quantitative Decision Making (8.8) · Corporate Finance (8.7) · Accounting (8.6, incl. 9.1/10 FSA report) · Financial & Tax Consulting (8.6) · Statistics (8.3)

PROJECTS

Equity Research & DCF Dashboard — Advanced Micro Devices — github.com/vibhavshirur/AMD_DCF_2026

- Built a complete DCF valuation of AMD programmatically (Python + Excel) from FY2021–FY2025 10-K/10-Q filings and H1 2026 results, deriving a **\$58–\$90 price-target range** against a \$480 market price.
- Stress-tested the thesis with a reverse DCF (market-implied ~\$163B 2030 FCF vs a ~\$19B defensible projection), peer-multiple cross-checks (NVIDIA, Intel, industry averages) and scenario analysis including ~20% dilution from OpenAI/Meta warrants.

SKILLS

Finance & Analysis: DCF & firm valuation · financial statement analysis · forensic accounting · budgeting & book-keeping · competitor analysis

Data & Tools: Advanced Excel · Power BI · SQL · Python · R · n8n · PowerApps
